

# New Spaceship

George Clinton

As I prepare myself to play live  
As I rehearse the songs that I've recorded  
I've been finding a new spaceship  
Everybody in the place  
Will you stand by me on the new spaceship?

A new spaceship has landed, now  
A new spaceship has landed  
A new spaceship has landed  
From the dawn lights to the dark

A new spaceship baby, how I feel about you  
How I feel alright, you're my delight  
I feel freaky and so distorted  
I've got my freakin' heart broken, now  
And I will go to the corner about you  
My pain for the freak of you  
I've freaked out for the freak of you  
Tweaked out for your tweaking  
Spaked out before I speak to you  
(Tweaked out)  
(Spaked out before I speak to you)

Make it last or you'll make me out of this world  
Think about when you guaranteed that we'd have good time

What's goin' on seems to me  
I've never ever used to be  
Probably I've let things go freeze

A new spaceship is here  
A new spaceship is here

Like plantations grown in this world since it began  
What can't be wrong, baby?  
So welcome aboard, baby  
Let's sit down across the new spaceship  
Let's travel now the whole planetary system  
Above the Earth  
Time now is tweakin'  
Time now goes freakin'  
Freakin' out for the freak of you
