

## Sloppy Seconds

George Clinton

Sloppy seconds make me wake up from my first impression  
Sloppy seconds make time movin'  
Sloppy seconds are tickin' and tockin' then go stand in line  
Ticking in my head

Sloppy seconds make me wake up from my first impress  
Sloppy seconds make me ride on the mothership  
Sloppy seconds make the hourglass runs of out sand  
If you have to ask what time is it

Sloppy seconds make me the clockwork swingle  
Sloppy seconds make me wonder if there's a clock yet  
Sloppy seconds make me know what time is currently  
Sloppy seconds make the time ticking in my head

Sloppy seconds make me wake up from my very first impress  
And make me ask what time is currently  
Sloppy seconds make me wake up from my very first impress  
And make me ask what time is currently

A time long gone I've been ridin' on the mothership  
Sloppy seconds make the time movin' on too  
I gave up the funk aboard the mothership  
Time long gone I've been ridin' on the mothership  
I gave up the funk aboard the mothership  
Time long gone I've been ridin' on the mothership

Da-da-da-da-da...

Sloppy seconds make me wake up from my first impress  
Sloppy seconds make me ridin' on the mothership  
Sloppy seconds make me wake up from my first impress  
Sloppy seconds make me ridin' on the mothership
