

# How About You

George Duke

How about you  
Will you see this through  
How about you  
Will you be strong, or am I wrong

Have I stayed too long  
And sung the wrong song, oh, baby  
Come home too late, put you in a state  
That you can't see your way through

Oh, how about you  
Will you even try not to deny that that is right  
with us  
Baby hold on, before it's gone, oh

How about you, baby  
Do you say we're through  
Oh, how about you  
Have moved on, found a new song

Oh, how about you  
Should we start anew  
Won't you answer me please, I'm down on  
my knees beggin' you

To make your move  
Do you feel the same  
Or am I insane, blinded by cold-hearted love  
Is this a game, that both of us lose

Baby, please, please choose

How about you  
Do you feel like I do  
How about you  
How about you This tango's for two  
Oh, how about you

Will you even try not to deny that  
that is right with us  
Or am I insane, blinded by cold-hearted love  
Is this a game, that both of us lose  
Come on, just choose

How about you, baby  
I want to see this through  
Now it's up to you, decide what you'll do  
before it's too late
