

# Get Away

George Ezra

He's dreaming of a black tow car, screaming: "Move over!"  
He'll be flying through the sugar canes, screaming: "Move over!"

Any boy can dream, dream of anything  
Just like you

It's never been this way before  
Shut down by anxiety  
It's never been this way before  
You better get away, boy  
You better get away

And I'm running down a mountain side when I close my eyes  
And I'm a leader of a big brass band when I close my eyes

Any boy can dream, dream of anything  
Just like you

It's never been this way before  
Shut down by anxiety  
It's never been this way before  
You better get away, boy  
You better get away

And I'm moving on  
Like a lightning bolt  
Get away!

Any boy can dream, dream of anything  
Just like you

It's never been this way before  
Shut down by anxiety  
It's never been this way before  
You better get away, boy  
It's never been this way before  
Shut down by anxiety  
It's never been this way before  
You better get away, boy  
You better get away

You better get away, boy  
You better get away

You better get away, boy  
You better get away
