

# Your Love Is Forever

George Harrison

Sublime in the summertime, warm and lazy . . .  
These are perfect days like heavens about here,  
But unlike summer came and went -  
Your love is forever,  
I feel it and my heart knows  
That we share it together.

Resigned to the wintertimes cold and dreary  
Peering into fire flames, burning I know  
That unlike winter came and went  
Your love is forever  
I feel it and my heart knows  
That we share it together

I feel it and my heart knows youre the one  
The guiding light in all your love shines on  
The only lover worth it all  
Your love is forever.
