

Miracles

George Huff

Once i took a chance that led to everything i want and dreamed
I could be so much that would be a miracle
Family and friends the gathered around to pray
How they prayed for a miracle and hoped for a miracle
But I found out that

Miracles they happen everyday
In ordinary ways life is a miracle of ordinary love
Its true and simple as it seems
Ordinary love is a miracle to me

We're looking for stars that shoot across the sky
Bring fairy tales to life
That would be a miracle
So often we miss the little things in life
While we pray for a miracle and hope for the miracle but still
we find that

When you realize the truth
That it all depends on you and then the ordinary becomes extrao
rdinary
Love
