

Real Love

George Huff

Stop searching no need looking around
Got what you need stop fooling around
Everything you need I already found
And its so lovely I cant wait for you to see
How this love has changed my life
Make me wanna change wrong from right
And I love it I just wanna share it
I promise that you wont regret it

You been searching for a long, long time
You looked there but not here and i will bet if
You have this love in you you'll be telling everybody like I'm
telling you

Real, real love I got it and I gotta shout it
And let everybody know about it
Real, real love I got it I'm so glad I found it
And I wont let it go

I used to be you looking and searching just trying to find some
thing true
That's why you should listen and stop tripping Cause I know wha
t you been missing
What's good for you that's why you need this love
Cause one thing I promise you will never get caught up
Cause this love is so beautiful
It will change your life and make everything alright

You been searching for a long, long time
You looked there but not here and i will bet if
You have this love in you you'll be telling everybody like I'm
telling you

I want you to know the truth
You need to know the truth
You want change it will bring
Everything that's missing you
