

# You Know Me

George Huff

You know me everything i do  
You know me i'm a window you see through  
When all the world is not at home your waiting for me at the do  
or  
And you let me in  
Its all beautiful

When i stumble you bruise when i hurt myself it hurts you  
So when i make you cry it makes me never want to fall again  
But the smaller i am the larger your love

You know me everything i do  
You know me i'm a window you see through  
The most foolish thing i could ever do  
Is think that i could lie to you  
And put up walls you'd see through them

Cause you know me you know me you know the secrets and the scar  
s  
That's how into me you are Cause you know me

In a street full of noise its amazing how you can still hear my  
voice  
And when i pull away you care enough to patiently wait  
'Till i come back around like i am now  
It's beyond beautiful

Cause you know me you know me you know the secrets and the scar  
s  
That's how into me you are Cause you know me

Im a window you see through  
When all the world is not at home  
you know the secrets and the scars  
That's how into me you are Cause you know me
