

# Candy Hearts

George Jones

Once upon a time when we were in our teens  
We shared our future hopes and plans and many lovely dreams  
Do you recall that happy day about my love that true  
And I gave a box of candy hearts with these new words to you.

One little heart said I love you, one said please be mine  
One said kisses to you dear and one said your devine  
One little heart said dear you're the sweetest one said love me  
true  
So with that box of candy hearts I gave my love to you.

Now the lonely night are passin' while I'm far away  
I wonder if you'll feel the same when I return someday  
I can't forget I love you yet and I alway will  
So I'm sending candy hearts to say exactly how I feel.

One little heart said I love you, one said please be mine  
One said kisses to you dear and one said your devine  
One little heart said dear you're the sweetest one said love me  
true  
So with that box of candy hearts I gave my love to you.

Yes, with that box of candy hearts I gave my love to you...
