

Here We Are

George Jones

If you say that you've been searchin' for
A place you've never been
Aw, here it is, darlin', here it is
And when you're down there at the bottom
And you're lookin' out for a friend
Here I am, darling, here I am
We've both grown tired
Of running after rainbows
Here we are, darling, here we are

If it feels like you've been driftin'
And you don't know where you've been
Come on in, you can come on in
And if all you've seen is back roads
That leads you out of town
Turn 'round, darling, turn 'round
We've both grown tired
Of running from each other
Her we are, darling, here we are
We've both grown tired
Of running after rainbows
Here we are, darling, here we are
Here we are, here we are...
