

It's Been A Beautiful Life

George Jones

Darling, I've loved you all of these years
And you've never once caused the heartbreak or tear
Without you to love me oh what would I do
It's been a beautiful life loving you.

And darling, I love you more every day
And I'll stand beside you each step of the way
You've made it heaven, my dreams have come true
It's been a beautiful life loving you.

If ever I need you, you're always there
Life is much sweeter knowing you care
Always together till life is through
It's been a beautiful life loving you...
