

# It Scares Me Half to Death

George Jones

It scares me half to death  
To think I almost lost you  
It breaks my heart to know  
How much I made you cry

And if you'll let me show you darling  
I'll right the wrongs I've done  
And ease the heartaches I have  
Caused in the days gone by

You told me that our love was cold  
And then you said goodbye  
But I can't love another  
I'd be living a lie

It scares me half to death  
To think I had forgotten  
The vows we made to stay  
Together come what may

And while I'm holding you my darling  
I'm holding my breath  
'Cause just the thought of losing you  
Scares me half to death

It scares me half to death  
To think I had forgotten
