

# "IT"

George Jones

I hate it  
It's no good it's all over and it doesn't matter anymore  
You told me that you walked out the door  
It's too late oh I hate it

It was love at first sight and it was heavenly  
And almost over night it wasn't hard as used to be  
It was all down hill then it was time to slip  
It's too bad it's so sad I'm fed up with it

I hate it...

I bring it on you and you bring it on me  
It was nothing near it's the oldest history  
It's been hard on us both we don't like it one bit  
Let's stop blamin' it on each other let's blame each other on i  
t

I hate it...  
I hate it
