

Show Him That You Love Him

George Jones

You've got to show him everyday that he's wanted
Let him know that you're proud he's around
And tell him every night that you'll always love him right
And you know his love will never let you down

If your heart's been acting kinda funny lately
Maybe it's just that you haven't told him how you feel
But instead you've gone and told your friends he's a good man
Love him and you know you always will
He's the one you should be telling how much love you have for him
And all of those compliments comin' from you
You can change your outlook now, and I'm gonna tell you how
Listen, here's all you have to do

You've got to show him everyday that he's wanted
Let him know that you're proud he's around
And tell him every night that you'll always love him right
And you'll know the Lord will never let you down

You've got to show him everyday that he's wanted
Let him know that you're proud he's around
And tell him every night that you'll always love him right
And you'll know the Lord will never let you down

And you'll know the Lord will never let you down
