

You're The Best Living

George Jones

I've looked the whole world over, seen all there is to see
And romance in Rome was so heavenly
I've sailed across the ocean just soaking up the sun
But you're the best living that I have ever done.

I've laid on satin pillows and slipped away with time
Yes, I have had the finest the women and wine
I played around with midnight until the morning come
But you're the best living that I have ever done.

You're the best living that I have ever done
A world of love and pleasures, that's what one might become
Loving you is living, my life has just begun
And you're the best living that I have ever done.

Yes, you're the best living that I have ever done.
