

Cold Water

George Maple

Days have been passing by
I do not call you mine
Anymore
I'm starting to feel the high
Is wearing off and it's
Getting real round here

Where did I go
Where did you go
(Where did you go)
Was it too fast
Was it too slow

Stuck in cold water
It leaks into my veins
Cold water
The high that I was chasing
Stuck in cold water
Cause you let me get away

So now I watch the tide
Free as she minds her own
Oh I wish I could be so fluid
Oh I wish I could see what you did

Where did I go
Where did you go
(Where did you go)
Was it too fast
Was it too slow

Stuck in cold water
It leaks into my veins
Cold water
The high that I was chasing
Stuck in cold water
Cause you let me get away
