

Demise

George Maple

Whispers in the dark
But there's nothing left to say
You stumbled with my heart
But I can't give it away

This time
How did I get here this time
Same old high, same demise
How did I get here this time
This time
Same old lies, same demise

It's so fragile, you and I
Thought I'd risk it one more time
So I pushed it to the edge
Off the cliff

How did I get here this time
This time
Same old high, same demise
How did I get here this time
This time
Same old lies, same demise
