

Fade

George Maple

There's a place that I go
Where it all falls away
Where nobody loves me
Nobody needs me
Nobody sees me

There's a place that I go
Where my mind is awake
Where nobody loves me
Nobody needs me
Nobody sees me

I fall into the background
I fade it all to black
And everybody's gone now
And I won't be back

I fall into the background
I fade it all to black
And everybody's gone now
And I won't be back

Everybody's gone
Fade it all to black
Everybody's gone
And I won't be back

There's a place that I go
Where I'm wasting away
Under here
And I know
Nobody needs
Nobody sees me

There's a number I call
When I need to release
Where nobody needs me
Nobody flees me
I can be free now

I fall into the background
I fade it all to black
And everybody's gone now
And I won't be back

I fall into the background
I fade it all to black
And everybody's gone now
And I won't be back

Everybody's gone
Fade it all to black
Everybody's gone
And I won't be back
