

# Mine

George Maple

Don't you know you're mine  
Never leave my side, and it's alright  
And there'll come a time  
You'll try, don't even think about it

Don't you know you're mine  
Never leave my side, and it's alright

Put your skin on my skin  
Break me down to my sins  
With your skin on my skin  
Break me down to my sins

And there's fools in the dark  
Lies on the surface  
What do you choose

Don't you know you're mine  
Never leave my side, and it's alright

Put your skin on my skin  
Break me down to my sins  
With your skin on my skin  
Break me down to my sins

And it's alright cause you're here by my side  
I don't know if I ever will survive the tide  
Of the times  
All in your mind

Put your skin on my skin  
Break me down to my sins  
With your skin on my skin

Come take me back  
To places I've been  
But I don't know you  
Shall we begin

Take it up, tell me why  
The future never lies  
I know you  
I know you  
Take the turn of the tide  
Freedom is mine  
I know you  
I know you

Take your lips on my skin  
Carry me under into your escape  
The place where my heroes died

Put your skin on my skin  
Break me down to my sins  
With your skin on my skin
