

# Stone

George Maple

Weight in your bed  
We never got too far  
So we signed it to mend  
And everyone wants you  
So you're starving for them  
And we're gasping for air

And we're so far from home  
And we should've known by now  
That we should let go  
But I do not want to  
So let's turn us to stone  
That way we'll never be alone  
Never alone

We're so far from home  
And we should've known by now  
That we should let go  
But I do not want to  
So let's turn us to stone  
That way we'll never be alone
