

Vacant Space

George Maple

It's better with the lights off
It's better when you slow it down
It's better when I stop
Thinking about it
Maybe I'll put my hair up
Maybe I'll close my eyes
Maybe we can find
Some mutual ground

I just wanna know, just wanna know, just wanna know
If you're faking it, like me
I just wanna know, just wanna know, just wanna know
If you're taking me seriously
I just wanna know, just wanna know, just wanna know
If you're faking it, like me
I just wanna know, just wanna know, just wanna know
If you're taking me seriously
I just wanna know, just wanna know, just wanna know
If you're faking it, like me
I just wanna know, just wanna know, just wanna know
If you're taking me seriously
I just wanna know, just wanna know, just wanna know
If you're faking it, like me
I just wanna know, just wanna know, just wanna know
If you're taking me seriously

Cause I wanna lay here like I did
But I feel there is vacant space between
And I wanna love you like I did
What a shame that I don't feel anything

I just wanna know, just wanna know, just wanna know
If you're faking it, like me
If you're taking me seriously
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
I just wanna know, just wanna know, just wanna know
