

Let's Dance Dance Dance

George McCrae

Come on, honey, come on, baby
Let's go downtown
Where we can dance now
And make romance now
Let's get on down
To that club where we found
Where everybody's dancing
To the disco sound
Get in the mood, get the groove
We're gonna dance, dance, dance
The whole night through

I wanna dance, dance, dance
I wanna dance, dance, dance
I wanna dance, dance, dance

There's a place down on the block
Where everybody likes to rock
Take off your shoes, lets start move
Let's get into the disco groove

Let's dance, dance, dance
I wanna dance, dance, dance
Let's dance, dance, dance

Sexy lady, you drive me crazy
The way you do the dance you do
Your exciting so inviting
When I leave I'm gonna leave with you

Mr. Deejay play rock your baby
And let's get down tonight
Play the hustle and doctor's orders
And can't get enough of your love
And shame, shame, shame
Shame, shame, shame
That's the way, aha, aha
I like it, aha, aha

Let's dance, dance, dance
I wanna dance, dance, dance
Let's dance, dance, dance
I wanna dance, dance, dance
