

# Mechanical Body

George McCrae

Mechanical body that's what you got  
Like a hundred thousand kilo watts moving in and out  
You can love forever and never get tired  
And it's so unreal, babe, what I feel inside  
Computerized and hypnotize

Words won't explain the way I feel  
And I have a hunger, baby  
That only you can fulfill  
There's no love problem that you can't solve  
And when my love comes down  
You do your job  
You can do fulfill complete inside  
That we started

With your mechanical body and computerized mind  
You're so rare, babe, you're one of a kind  
Mechanical body and computerized mind  
You're so rare, babe, you're one of a kind

Your love has a lock, baby, and only one key  
And it's pleasing to know  
That it belongs to me  
Forever and ever till eternity

You're the reason I can do all those things  
And when we, ooh, baby, what joy it brings  
Your skin is like silk, baby, instead of flesh  
And when my lips reach yours  
You'll feel so refreshed  
So come through this flame of love  
That you started

With your mechanical body and computerized mind  
You're so rare, babe, you're one of a kind  
Mechanical body and computerized mind  
You're so rare, babe, you're one of a kind
