

Ever Really Know

Georgia Ku

Not this time
I'm sick of losin' sleep and playin' nice
And givin' back your heart
Every time you need a little distance
What if I jumped the gun
Like after these few days it will be different
What if you say you've changed?
What if you stay the same?

Try, and try, and try your best
But don't show up at my front door
Callin', callin', call again
I've heard it all, been here before

Good times, skinny love
And cheap wine, sunsets on the West Side
I know how this goes
But did I ever really know you?
Small talk turnin' into late nights
Endin' up in big fights
I know we were close
But did I ever really know you?

But did I ever really know you?
But did I ever really know you?

Another bad excuse
I take a bullet every time you reach out
I'm done with savin' you
I gotta save me too, oh-oh

Try, and try, and try your best
But don't show up at my front door
Callin', callin', call again
I've heard it all, been here before

Good times, skinny love
And cheap wine, sunsets on the West Side
I know how this goes
But did I ever really know you?
Small talk turnin' into late nights
Endin' up in big fights
I know we were close
But did I ever really know you?

But did I ever really know you?
But did I ever really know you?

Try, and try, and try your best
But don't show up at my front door
Callin', callin', call again
I've heard it all, been here before

Good times, skinny love
And cheap wine, sunsets on the West Side
I know how this goes
But did I ever really know you?
