

# Trouble

Georgia Ku

You look like trouble  
Don't mean to burst your bubble  
I ain't so subtle  
When I know what I want  
You look like trouble

I said I would stay home  
Then I got the FOMO  
Don't know how to say no  
I'm pulling up outside  
I don't stand in no lines  
It's that VIP life

Don't look at me like that  
You move dangerously  
I see all your red flags  
And I know just what they mean  
I know I should turn back  
But I like your energy  
Why is it so good  
That you're no good for me?

You look like trouble  
Don't mean to burst your bubble  
I ain't so subtle  
When I know what I want  
You look like trouble  
You got me spending double, on  
Dom Pérignon  
That I got you sipping on  
You look like trouble  
Don't mean to burst your bubble  
I ain't so subtle  
When I know what I want  
You look like trouble  
You got me spending double, on  
Dom Pérignon  
That I got you sipping on  
You look like trouble

So come join my table  
Vintage on the label  
We'll keep it playful, mmh  
You getting cuter  
Let's start some rumors  
And I'll book the Uber

Don't look at me like that  
You move dangerously  
I see all your red flags  
And I know just what they mean  
I know I should turn back  
But I like your energy  
Why is it so good  
That you're no good for me?

You look like trouble

Don't mean to burst your bubble  
I ain't so subtle  
When I know what I want  
You look like trouble  
You got me spending double, on  
Dom Pérignon  
That I got you sipping on

You look like trouble, trouble  
Trouble, trouble  
Trouble, trouble  
You look like trouble, trouble  
Trouble, trouble  
Trouble, trouble  
You look like trouble
