Georgia Webster

You said you wanted me forever
Never met someone like you
Said we'd always be together
Yeah, you promised me the moon
No, there ain't much we can say we didn't do
You took almost everything I had to lose
You were my

First kiss
First love
First drink
First drunk
First pickup truck
Where I said that I loved you
First on my skin
Well, I almost did
Thank God I never went with you
Thank God we never got tattoos

Yeah, you made me reckless
Made me wanna do the things I'd never do
Something stupid, just to prove it
Something now we can't undo
Yeah, you even called some shady place downtown
Kinda crazy when I think about it now
You were my

First kiss
First love
First drink
First drunk
First pickup truck
Where I said that I loved you
First on my skin
Well, I almost did
Thank God I never went with you
Thank God we never got tattoos
Thank God we never got tattoos

Thank God you broke my heart in
That one-bedroom apartment
Thank God I never went with you
Thank God we never got tattoos
Thank God I learned my lesson
I wish I never met ya
Thank God the first ain't with you
Thank God we never got tattoos
You were my

First kiss
First love
First drink
First drunk
First pickup truck
Where I said that I loved you
First on my skin
Well, I almost

Thank God I never went with you
Thank God we never got tattoos
Thank God we never got tattoos
Thank God we never got tattoos
