

# All Night

Georgia

Is it keeping you awake at night  
This feeling like we're running out of time?  
Lying on my bed tonight  
Wishing I was dancing in a crowd

The sun is coming up again  
The music and our dreams are all we need  
I can hear them speak to me  
Telling me to stay free

Takes courage just to try  
Everything once or twice  
There's nothing on the line  
Except what we'd miss if we didn't try

All night  
All night, na-na-na-na-na-na  
All night  
All I ever wanted was to dance with somebody

Got out of my bed tonight  
Got out of my imagination  
Called up a friend and now  
We're headed to a party on the edge of town

It takes courage just to try  
Everything once or twice  
There's nothing on the line  
Except what we'd miss if we didn't try

All night  
All night, na-na-na-na-na-na  
All night  
All I ever wanted was to dance with somebody

But don't tell me  
All we have is tonight  
Tomorrow you're leaving  
So let's stay up until the sunrise  
And feel so free all night

All night  
All night, na-na-na-na-na-na  
All night  
All I ever wanted was to dance with somebody
