

## Be Ache

Georgia

All I want now I'll never be  
You making me the enemy the enemy  
Now I'll never be free the enemy  
We flying high oh this is how it feels  
For real to be the enemy you can tell  
To be the enemy you can tell you can tell  
Now that I know now that I know  
Listen to me now I will be the only one  
To really let you know

To be love the moment  
To be love the moment  
To be love the moment  
To be love the moment  
To be the enemy

All I want to be the enemy  
Now I'll never be free  
You making me the enemy  
The enemy now I'll never be free  
The enemy

And you can tell another another  
And I'm a lover from another  
Listen to me baby I will be the only one  
And I will never be sober you know that  
There's no other and I will be the other  
So listen to me now you can make it into  
The stars you can tell me oh listen to me  
Cause I'm the only one to love in the world

All I want to be the enemy  
Now I'll never be free  
You making me the enemy  
The enemy now I'll never be free  
The enemy

I can be your heartache  
You can be a heartache  
You can be whatever  
Listen to me baby  
Listen to me in the moment  
You will be the only one when it's over
