Digits

Georgia

As the rest of the number change
Call me up strong it's stuck in my
Head like a four letter song no way
Break it down shut it down these
Digits are bridges so ring it when
You need it my heart as the rest
Of the number change call me up
Strong it's stuck in my mind like
A four letter song I open up the
Number and all wrong change
It's communications going so
Strange hold it down time is
Running out signals down these
Digits these numbers still ringing
Underneath it

Hold it down now let me in now
Hold it down now
Hold it down now let me all alone
Hold it down now no way
Deep down hold me down
Hold it down now no way
Deep down hold me down
Shinedown my heart
These digits are bridges
So ring it when you need it

Has the rest of the number change
Call me up strong digits medicinal
So you can call me on the phone
These digits are medicinal so long
Personal these digits are medicinal
So call me on the telephone these
Digits are medicinal so call me on
The telephone so has the number
Change so call me when you are
Strong digits are medicinal call
Me on the telephone
