

Are you the one that I use to
Give me the lie tell me that it's over
And then the whole line separate
Give me the lie tell me that it's over
Tell me that tell me that it's over
Give me the lie tell me that it's alright
Give me the lie tell me that it's alright
Tell me tell me that it's alright
Give me the lie tell me that it's over

You always wanted to be it all the time
Now you are in the edge of my mind
Struggling to be human with you
Tell me that you want me and I don't
Want to but it's hard to give me the
Lie and tell me that it's all over
Give me the lie tell me that it's over
Tell me that tell me that it's over
Give me the lie tell me that it's alright
Are you the one that I'm use to
Give me the light and tell me that
It's all over it's alright give me the
Light tell me that it's all over ooh
Tell me it's tell me it's give me the
Light and tell me that it's all over
