

I Can't Wait

Georgia

Is it too late just to believe someday
That we could've made it to our place?
Though we've tried to hold the feeling inside
Won't let it slip away
I put the blame on anyone who's ashamed
And I swear I'm gonna let you know
"This is just an ideal", they'll say

We finally begin to understand each other
I can't wait one more year
That feeling like no other, with all we rediscover
Things will never disappear

I can't wait
I can't wait

I (Wait, wait, wait, wait, wait, wa-) can't wait

Nobody knows 'cause I'm a one way track
And if I can make it to look back
I will say "It wasn't too late
She's got the feeling now"
I put the blame on anyone who's ashamed
And I swear I'm gonna let you know
"This is just an ideal", they'll say

We finally begin to understand each other
I can't wait one more year
That feeling like no other, with all we rediscover
Things will never disappear

I can't wait
I can't wait

If I needed some energy
All I wanted for another week
Then I would take you

We finally begin to understand each other
I can't wait one more year
That feeling like no other, with all we rediscover
Things will never disappear

I (Oh, I really can't wait) can't wait
I (Oh, I really can't wait) can't wait

I can't wait
