

It's Euphoric

Georgia

It's euphoric
When you're standing next to me
It's euphoric
When you're standing next to me
It's euphoric
When you're standing next to me
It's euphoric
Whenever you're next to me

Down in Regent's Park
That's where you stole my heart
I wasn't saying much
Was on the tip of my tongue

You don't have to say
Nothing
When you start to feel
Something
(Something)

It's euphoric
(It's euphoric)
It's euphoric
(It's euphoric)

It's euphoric
When you're standing next to me
It's euphoric
Whenever you're next to me

Do you remember that day
When we learnt the streets so fast?
I wasn't saying much
Was on the tip of my tongue

You don't have to say
Nothing
When you start to feel
Something
(Something)

It's euphoric
When you're standing next to me
It's euphoric
When you're standing next to me
It's euphoric
When you're standing next to me
It's euphoric
Whenever you're next to me

Back in the park
Nothing keeping us apart
All the things I wanna say
But I put the words away
And I feel you next to me
(One, two
One, two, three, four)

It's euphoric
When you're standing next to me
It's euphoric
When you're standing next to me
It's euphoric
Just keep holding onto me
It's euphoric

So keep holding onto me
So keep holding onto me
