

Keep On

Georgia

Can you feel my heart? It's calling out for you
I'm unsteady, never ready, I'm holding on, pull me through
I gotta trust it now
All I want is
To feel a light in my hands
To love something you don't understand
(And know it's all around)

I was lost, not knowing where to find myself in our cities' blues
Get up, get out into the storm where the horizon changes hue
I gotta trust it now
All I want is
To feel a light in my hands
To love something you don't understand
(And know it's all around)

Feel
Love

Something tells me
Something tells me

I should keep on, keep on, keep on loving you
And we should keep on, keep on, keep on loving through
And I should keep on, keep on, keep on loving you
We should keep on, keep on, keep on loving too
And I should keep on, keep on, keep on loving you
And we should keep on, keep on, keep on loving through
Alright

Feel
Love
