Somebody said to me, "To help the remedy
Fall into a state of elation"
Now we come together, love to love forever
And set it all of in perfect harmony
There are legends and myths, led to millions of gifts
But nothing could act sufficiently
It'll make it feel better, eyes-to-eyes, whatever
If we cannot make it supernaturally

Pick up your ray guns
Pick up your ray guns
Pick up your ray guns
Pick up your ray guns
Pick up your ray guns (Let your love travel on)
Pick up your ray guns (If she really want to shine at all)
Pick up your ray guns (Ours collectively)
Pick up your ray guns (Light your life perfectly)

We all feel elation, a celebration
When we come together perfectly
A little bit of nonsense, the closest star burns
Laugh it all off harmoniously
A powerful force inside the source
Point them all together towards the sky
It'll make it feel better, eyes-to-eyes, whatever
We can make this happen if we only try

Pick up your ray guns
Pick up your ray guns
Pick up your ray guns
Pick up your ray guns
Pick up your ray guns (Let your love travel on)
Pick up your ray guns (If she really want to shine at all)
Pick up your ray guns (Ours collectively)
Pick up your ray guns (Light your life perfectly)

Now we see each other big and bright
Clearly, perfectly
Shining love through this endless night
He said, "I wanna know what it feels like
To let your light shine up to the sky
Light up the night"
Be who you will be collectively and perfectly

Pick up your ray guns (Let your love travel on)
Pick up your ray guns (If she really want to shine at all)
Pick up your ray guns (Ours collectively)
Pick up your ray guns (Light your life perfectly)
Pick up your ray guns (Let your love travel on)
Pick up your ray guns (If she really want to shine at all)
Pick up your ray guns (Ours collectively)
Pick up your ray guns (Light your life perfectly)

Now we see perfectly
Now we see perfectly
Now we see perfectly
Now we see perfectly
