

Some Things You'll Never Know

Georgia

Last night you said to me
Go on, let yourself finally be free
It's never that easy
I'm trapped in the walls of my anxiety

Oh, I wanna know what you think about us
I wanna know if our future's star-crossed

You said some things you'll never know
Some things you'll never know
Never know, never know
Some things you'll never know

Don't wanna push you away
Or make you feel there are things you can't say
I'm trying to find a new place
A place where we can trust each other honestly

Oh, I wanna know what you think about us
I wanna know if our future's star-crossed

You said some things you'll never know
Some things you'll never know
Never know, never know
Some things you'll never know

I wanna know what you think about love
I wanna know what you think about us
I wanna know what you think about us
Is it now or never, baby?

You said some things you'll never know
Some things you'll never know
Never know, never know
Some things you'll never know

I wanna know what you think about us
I wanna know what you think about love
I wanna know what you think about us
Some things you'll never know
I wanna know what you think about
Some things you'll never know
