

You

Georgia

No ocean that will bring me to you
No sun that I will see Lighthouse
Will crash beneath you I'll say
All day to greet you

Only when I feel like I'm alone
Only when I feel like I'm alone
The more I think of us
The more I think of us
The more I think of us
Ring me ring me
The more I think it out
The more I think it out
The more I think it out
Ring me ring me
No ocean that will bring me to you
No sun that I will see Lighthouse
Will crash beneath you I'll say
All day to greet you

Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone
Only if you like I'm alone (come along, come along)
Only if you like I'm alone
