

Is It Really The Same

Georgie Fame

Tell me, when I call your name
Is it, really the same

What's it like when you meet an old flame
Like me

Baby, it's been a long time
I've been, out of my mind

May I say that you're looking real fine
Like me

I got a feeling when I saw you
My head was reeling and I wondered if you
But then again
This kind of feeling could make me blue
Tell me baby is it, really the same with you

~~~♪♪♪ ~~~

Tell me, when I call your name  
Is it, really the same

What's it like when you meet an old flame  
Like me

I got a feeling when I saw you  
My head was reeling and I wondered if you  
But then again  
This kind of feeling could make me blue  
Tell me baby is it, really the same with you

Is it really the same when I'm callin' your name

Is it really the same when I'm callin' your name

Is it really the same when I'm callin' your name

Is it really the same when I'm callin' your name

Is it really the same when I'm callin' your name
