

Drown

Geowulf

You wanna know if I'm doing fine
In my new life that I made without you
You wanna know if I remember you
It must be magic the way I feel you

We decided we were better apart
And I decided to leave

Gone were the days of riding your colors
And I went down with you
We tried so hard to keep above water
I would've drowned if you wanted me to
I would've drowned if you wanted me to

Try and take back all the time we spent
Back and forth with all of our secrets
We have been onto a fresh start
With all-new names and all-new places

We decided we were better apart
And I decided to leave

Gone were the days of riding your colors
And I went down with you
We tried so hard to keep above water
I would've drowned if you wanted me to
I would've drowned if you wanted me to

Time is all we needed
I didn't think it through
I didn't think I could get over you
Feels so nice to swim again
Instead of trying to
Step out of your whirlpool
I won't go round and round with you

Gone were the days of riding your colors
And I went down with you
We tried so hard to keep above water
I would've drowned if you wanted me to
I would've drowned if you wanted me to
I would've drowned if you wanted me to
I would've drowned if it wasn't for you
