

Hideaway

Geowulf

You looked away
And I couldn't try to move you for another day
We had work to do
But you kept checking in and out on us
You followed me
And I guess it made me think you wanted more
But we're worlds away
Now you're hiding in the cave that keeps you warm

Shaking our old foundations
Caught in this situation
Started to feel we're living a lie
No idea what you're feeling
Couldn't see anything changing
Giving it all, I tried, I tried

Oh, dear God, what are you frightened of?
You never opened up
All you do is hideaway
Darling, please, why'd you shut me off?
I tried to show you love
All you do is hideaway, hideaway

Don't let me in
For the chance that it will take more than it gives
But be okay
To dabble in the secrets where you live

Shaking our old foundations
Caught in this situation
Started to feel we're living a lie
No idea what you're feeling
Couldn't see anything changing
Giving it all, I tried, I tried

Oh, dear God, what are you frightened of?
You never opened up
All you do is hideaway
Darling, please, why'd you shut me off?
I tried to show you love
All you do is hideaway, hideaway

Hideaway
Ooh
You hideaway
Ooh
You hideaway
Ooh
You hideaway
Ooh
