

I've Been Over It

Geowulf

We called it over just in time to start again
And time's become the only thing to keep in check
I'm a lover and I give all to the game
I'm a fighter if I know I wanna stay

I've been over it
I've been over it
Time and time again, my head just wants to find a reason why
I needed another lesson in choosing who to give my heart

I let you go with all the plans I had for us
Look forward to another love that's not so hot
'Cause I'm a lover and I want someone the same
When you feel something's real, you wanna stay

I've been over it
I've been over it
Time and time again, my head just wants to find a reason why
I needed another lesson in choosing who to give my heart

I've been over it
I've been over it
I've been over it
I've been over it
I've been over it
I've been over it
