

Slow Dance

Geowulf

Can you give me one more chance?
I promise I'll do anything for you
I know that I've let you down
The years have been so hard on me and you

I don't wanna be making
The same mistakes I've made from years before
I just wanna be changing
I wanna take you back and take it slow

I wanna slow dance
I wanna slow dance
Can we leave it all behind us?
Can we leave it where we never have to go again?
Can we pick up all the pieces?
Let's take a slow dance, baby
Slow dance, take it slow

Can you give me one more night?
I wanna hold you, baby, close to me
Can you let me make it right?
You know that I would give you anything

I don't wanna be making
The same mistakes I've made from years before
I just wanna be changing
I wanna take you back and take it slow

I wanna slow dance
I wanna slow dance
Can we leave it all behind us?
Can we leave it where we never have to go again?
Can we pick up all the pieces?
Let's take a slow dance, baby
Slow dance, take it slow

I don't wanna be making
The same mistakes I've made from years before
I just wanna be changing
I wanna take you back and take it slow

I wanna slow dance
I wanna slow dance
Can we leave it all behind us?
Can we leave it where we never have to go again?
Can we pick up all the pieces?
Let's take a slow dance, baby
Slow dance, take it slow
