

Something Good

Geowulf

I swim in the sea
Of broken men and broken dreams
Somewhere between
Waiting for a feed

Dripping from your teeth
You take my love and give to me
The strongest current of apathy
I only want your sympathy

'Cause it's not the first time I've told you to leave
You and God know you have a hold on me
I've been so good without you
I've come to
But can you let me find
Something good

I know too much
I knew you when you were in love
Taking your time but tell me I'm late
But dreams will take you down
I know that you wanted out
You were just singing your praises to me
And I only give you what you need

'Cause it's not the first time I've told you to leave
You and God know you have a hold on me
I've been so good without you
I've come to
But can you let me find
Something good

I want something good
Something good, something good
I want something good

I want something good
Something good, something good
I want something good

I want something good
Something good, something good
I want something good

I want something good
Something good, something good
I want something good

I want something good
Something good, something good
I want something good

I want something good
Something good, something good
I want something good
