Whirlwind

Geowulf

I liked you most when you were cooking for your father
I liked you even in your sweatpants for days
For a clever girl, I've not always been so smart
'Cause some things are forever, some things aren't

I've been calling you to see if you'll come swimming
I've always been the kinda girl who's okay to ask
You didn't know, but I let you break my heart
'Cause some things are forever, some things aren't

I think I've been here before
Oh, I think I've been here, been here before

I liked you, even though I didn't like myself
I'd been looking for something to turn me on
You didn't know you held a mirror in your arms
'Cause some things are forever, some things aren't

Some things are forever, some things aren't
Some things are forever
