

# Taking Everything

Gerald Levert

Never thought you bring me so much pain  
Lord knows I tried to keep you happy girl  
in ever way  
out on the road doing my thang trying to  
keep you laced  
trying to keep a smile upon your face girl  
was all my happiness in vain  
or did I place in you a little too much faith  
now nothing but memories  
never though that this would be the price I  
had to pay

You took my heart you took my car you took  
my crib  
got the nerves to take my kids  
got the nerves to take my kids  
you took my love and my life  
girl you took my soul  
taking everything from me  
taking everything from me  
you took my heart girl you took my car  
and you took my crib trying to take my kids  
girl you took my love than you took my soul  
taking everything everything everything  
everything everything

And now I'm sitting all alone  
trying to figure out where you and I went  
wrong  
you know it makes me wanna cry  
just thinking about it makes me wanna lay  
down and die  
for the life of me I don't know how  
that you could take for granted and disregard  
our sacred vows  
now nothing but memories  
never though that this would be the price I  
had to pay

You took my heat girl you took my cars  
trying to take my crib  
got the nerve to take my kids  
got the nerve to take my kids  
and take my love an my life  
girl you took my soul  
you've taking everything from me  
taking everything from me  
you took my heart my pride  
my crib my kids my love my soul  
everything everything everything  
everything everything everything

Now I ain't never been no fool  
I've always tried to keep my cool  
I was faithful to you never abuse you or  
use you  
even though sometimes you make me want to

but I love you  
you should try to understand girl that I  
was your man  
my life was in your hands baby was shinning  
over everything  
now you're gone and I'm just gonna be a  
weekend Daddy baby  
can I call you baby or is that just a passing  
thing
