

Graveyard Shift

Germ

If you would lend me your ears
You did good, \$lick

I just wanna vibe alone
Niggas can't stop the goat
Plenty rocky roads, plenty dirty clothes
Plenty lost gold for lost souls
Ducking potholes, I'm remarkable

Poppin' my shit like ya'll poppin' them zits
Face full of worry when I step in this bitch
I can't step in this bitch without wrecking some shit
I'm a heavy-handed hardheaded bandit

Steady taking damage, it's appearent
Fucked up roxies in the cabinet
Tried to stop it, bitches can't stand it
All that actin', ya'll need a Grammy

Motion pictures painted, you ain't it
Powered by the dollars, can't evade it
It did it since a jit, I can't explain it
Do it 'til it's over, I'm shameless

Connected like plugs in a socket
Slidin' down Melrose, a deuce in my pocket
Paparazzi with the rockets, they flashin' out
Brand-new lil Rollie, they cashing out

Cash in the bag come in vast amounts
I been moving like Cassius Clay
Fuck out my way, it's some demons on board
Play your lil role or get shipped to the morgue

I ain't into no love, I can't do that no more
Heart done went cold. What's up with the allure?
Smoking blunt after blunt after blunt after blunt
Apologies, I'm being blunt

These all vee vees, I ain't tryna stunt
We ain't sayin' none I can't front
It's stuck, so what, fuck it up
