Bad Shit
Baaad Shiiit
Baaad Shiiit

I take these xans with a passion
Spazzin in traffic? end of a maverick
Pressed to the big bad list of the savage
Run it and blast it
Fuck em let em have it
Jaded I'm feeling I'm over the bullshit
Looting shooting functions [?]
No turning back I'm gunning it
Fuck what the discussions is
Talk ends and no plans
I'm lost in this bitch
Let me rock until they gun me down
Running round with loaded rounds
In my Gucci linens
Lit em off on the women
Hit the mistress with the purses
And raw dog I'm snatching and smashing on sight
No stops at the light
Walk to the water I won't ever fall
Ride for your card I'm a piece of shit lunatic
Maneuvering through really lucrative foolishness
Fucking a pocket, pump and make you drop it
Hoe ain't that what you about
Put your hands out I got pieces for you and your block
I'm ready on house
I need all that I stay quiet
Not fucking with me it's riding time
Coming in sketchy like shooters from Columbine
Bitch I'm really here from Mars
