# Don't Ever Stray

**Gerry and the Pacemakers**

I want your true love it's the best love for me
I'm only happy when I know you love me
When we're together the world's oh so gay
But I feel like dying when you're away

I want your true love and you by my side
So I can hold you of time

So please remember forever and a day
My love is your love so don't ever stray

Ever time I see you the sun seems to shine
I'm oh so happy to know you are mine
I long to see you more everyday
Please be my true love and don't ever stray

Why do I long for your tender touch
Why does my heart sing "I love you so much"

So please remember forever and a day
My love is your love so don't ever stray
My love is your love so don't ever stray
