

Think About Love

Gerry and the Pacemakers

Think about the love I can give to you
And think about the dreams that we two can do
And dreams that can come true

Think about the days when we'll be alone
Think about the love we can call our own
And we'll be happy together

If you take a chance on our romance
Then darling I will be here
Holding you in my arms
Never let you be free

Think about it more every day
And think about the way my love for you will stay
Cuz I, I'm in love with you

Take it!

Well and if you take a chance on our romance
Then darling I will be here
Holding you in my arms
Never let you be free

Think about it more every day
And think about the way my love for you will stay
Cuz I, I'm in love with you
Cuz I, I'm in love with you
