

# You Can't Fool Me

Gerry and the Pacemakers

You can't fool me, you can't fool me, I'm lookin' cool  
Well I can see you care for me. I'm not a fool  
I've got a pair of eyes  
And I know I'm hearing little sings  
You can't disguise

You can't fool me, you can't fool me, I'm not a clown  
And when we touch you care too much to let me down  
And you do really love me  
And you don't wanna be free  
You can't fool me

Ask her I'm too careful  
Say you need me never

You can't fool me, you can't fool me, I'm very smart  
And when you cheat you're much too sweet to break my heart  
Don't try to say we're through  
You know as well as I, my love  
It isn't true

You can't fool me, you can't fool me with little lies  
So don't you try to say good-bye I'm much too wise  
Stay, honey, kiss me do  
And if you never fool me, I won't fool you

Oh no you can't fool me  
Whoa no no you can't fool me  
Whoa no no no you can't fool me  
Whoa no no no you can't fool me
