Digital slaves

Gesaffelstein

Um, bring out the fun, jump in the void
Bring out the toys, jump over the rift
Oh, what you gonna do before we're all gone?
What you gonna do before we're all gone?
I'm gonna have fun with the digital scums

Um, listen, all y'all, can you hear them chant?
Cars, coolers, color TV
And dance, dance, dance to the digital mess
And bring out the fun with the fog machine
Bring out the fun with the fog machine
And laugh out loud with my digital friends
And laugh out loud with my digital friends

Your body is
What your body learns
Digital slaves
In the mainframe
Digital scums
Come, save me now
Deep down, you wish
That it's not the end
